Introduction

The FEMA Grants Outcomes (GO) Organization and Suborganization Management Guide presents key functionalities needed to add a suborganization, view your organization/suborganization profile, manage your team and pending registrations, as well as adding new team members/users.

This guide is primarily for those assigned in the AOR and SAR roles.
Roles and Permissions

- **Authorized Organization Representative** – can manage team members and has all organization permissions, including submitting information to FEMA.

- **Organization Member** – can view and edit all information, but cannot submit to FEMA or manage teams.

- **Programmatic Member** – can view and edit all information and submit amendments and programmatic reports.

- **Financial Member** – can view and edit all information and can only payments or draw down requests, financial reports, and amendments.

- **Grant Writer** – can view and edit all information for an application or subapplication.

- **Subrecipient Member** – can view and edit a subapplication.

- **Subrecipient Authorized Representative** – can view, edit, and submit a subapplication and give other users subrecipient role permissions.
System for Award Management (SAM.gov)

- Registering with SAM.gov is **required** to start and submit an application – It’s FREE!

- The account must remain active throughout evaluation process
  - It is only active for one year and must be renewed annually
  - Know your expiration date to ensure active status through grant life cycle

- Verify your Electronic Business POC to register in FEMA GO
FEMA GO and SAM.gov

- The FEMA Grants Outcomes (FEMA GO) system automatically imports certain information from an organization’s active SAM record, including the organization’s legal name, mailing and physical address, EIN, DUNS and DUNS +4 numbers, and the Electronic Business Point of Contact (eBIZ POC).

- This information is automatically added to a grant application. As part of your application, you must verify that the organizational information imported from SAM is correct.

- If awarded a grant, financial transactions conducted between your organization and FEMA will utilize the banking institution information contained in your SAM record.

- Updates made to your SAM record can take up to 48 hours to reflect in FEMA GO. Updates may include details on an organization’s core information or changing the individual listed as the ‘Electronic Business Point of Contact’ (eBIZ POC).

- If you create or re-activate a SAM record, it generally takes 24-48 hours before the FEMA GO system recognizes the updates and allows you to register your organization or begin an application.
